Bespoke Custom Built Flightcases

"Dragon Cases" have been involved in the design and manufacture of custom built flightcases in the AV/ Broadcasting, Sound + Lighting and Electronic industries for over 15 years. The experience gained shines through in our efficient and competitive service. Custom flightcases designed for all types of application.

"DRAGON" Custom Built Flightcases are made to order in a range of colours and finishes using laminated birch plywood or ultra lightweight Astraboard. Aluminium extrusions and hardware are then added using steel bifurcated rivets wherever possible. Bifurcated rivets' holding power is much greater than the standard aluminium pop-rivets used by most manufacturers. This ensures the protection of what ever is being carried inside. Company logos can be silk screen printed on to the cases if required.

From bespoke 1 off cases to 1000 off production run, Dragon Cases has the resources and capabilities to service your requirements with the experience and expertise that leaves other custom case manufacturers behind

Polypropylene Cases

Strong yet lightweight and durable polypropylene cases used as a durable packaging solution manufactured from 1.4mm polypropylene available with hinged or lift off lids manufactured to order in black, red, green, white, grey, blue or yellow.

Silk Screen Printing of company logos available if required.

Commonly suited to light and medium duty applications the versatility of this product is almost endless.

Construction: Folded overlapped seams fastened with bifurcated split rivets.

Surface mounted hardware includes: leather or plastic handles, padlocking toggle catches, plastic or steel flat or ball corners.

Lids can be hinged with catches or lift off with webbing straps.

Padded Bags

Bespoke strong PVC backed nylon bags - a lightweight and practical solution to transporting delicate items.

Manufactured from a robust and hard wearing 840 denier nylon composite material which offers good all round protection with shower proof properties.

Various types of padded linings for high protection.

Handles or shoulder straps for an easy carry.

A large variety of colours to match your corporate identity.

Available Silk Screen Printed with your company logos.

Minimum order quantity - 5.
